

This contract applies the electricity sales terms recommended by Finnish Energy. The contract-specific terms below specify the content of the fixed-term contract.

Validity of contract

This is a fixed-term contract. We will make you an offer for a new contract one month before your existing contract expires. The offer will be sent to a personal address that you have provided us with, or, if agreed upon separately, to an electronic service. If nothing else is agreed upon, the contract will continue as a non-fixed-term contract until further notice, with a two-week period of notice on either side. The prices are announced separately by Vaasan Sähkö.

If a fixed-term contract is terminated at the latest two weeks before the end of the contract period, the termination shall take effect at the end of the contract period.

A fixed-term contract cannot be terminated during a contract period unless there is a specific reason for doing so (see Terms of Electricity Sales 2024, sections 10.2.1.–10.2.5). If you terminate a fixed-term contract for a reason not specified in the sections referred to above, Vaasan Sähkö has the right to charge a contractual penalty of 20% of the remaining contract period's total VAT free invoicing, but no less than 50 euros. The penalty charge is VAT free.

Price of sale product(s)

The price(s) specified in a fixed-term contract is/are fixed during the contract period. Any taxes and other payments affecting the energy price issued by the authorities may be transferred by the Vendor to the contract prices as such.

Change of place where electricity is used

This contract refers to the place where electricity is used, as specified in the contract. If you move, your contract will terminate, but you can make a new, fixed-term contract based on the prices valid at that time.

You must inform the Vendor of if the place where electricity is used changes two (2) weeks before the change comes into effect.

General terms and conditions applicable to fixed-term contracts

Otherwise the terms recommended by Finnish Energy apply. The terms are available at vaasansahko.fi/terms.
